

MARITIME BEEF CATTLE TEST STATION
HEIFER APPLICATION FOR ENTRY

The main focus of the program is to address the requirements for a supply of quality bred replacement cattle from our industry. It is with this in mind that our board has passed a motion that heifers entering on Winter Test **must weigh a minimum of 600 pounds.**

Heifers will be required to meet a certain criteria, the same as the bulls, in order to be entered in the Spring Sale. The Selection Committee will select these animals on the same day the bulls are selected. As our tradition is to offer only top quality animals, this selection will enable us to continue this endeavor. I trust this meets with the industry's approval.

Breeder's Name: _____

Address: _____

Postal Code: _____

Telephone #: _____ **Fax:** _____

Email: _____

APPLICATION FORM:

Please fill out the following information and forward it back to the office by October 1, 2011
